

## RECOMMENDATIONS FOR SAFE PLAY

1. All players must follow social distancing.
2. If a person plays a match and has tested positive, the player must contact their captain. Captains will contact the league coordinator as well as opponent's captain so that they may get tested and quarantine.

## RESPONSIBILITIES

FACILITY	CAPTAIN	PLAYERS
Clean and sanitize bathrooms regularly.	If your home facility provides score keepers, assign 1 person per court from the home team to change the score.	Provide your own water, towels, sanitizer, wipes, etc.
Some facilities may require additional screening prior to being allowed to enter. Ex: temperature checks, questionnaire, limited number of persons in facility.	Assist team with crossover protocol to all for further social distancing. I.e. change sides on opposite sides of court.	If any player wishes to use their own GVTL approved balls for match play, that player must provide their own can of new balls. Home team is only required to provide 1 can of balls per line/match.
	Do not allow players in the lineup that may be experiencing COVID-19 symptoms.	Players may bring their own folding chair for changeover seating to assist in social distancing.
	Alert players ahead of time if the home facility requires additional screening.	Consider adding a carabiner to your tennis bag so that you may hang it on the fence away from others.
		Masks must be worn where required at each facility.
